EXAMINER'S AMENDMENT

Correction of Inventorship Under 37CFR 1.48(b)

In view of the papers filed December 9, 2003, it has been found that this nonprovisional application, as filed, through error and without deceptive intent, improperly set forth the inventorship, and accordingly, this application has been corrected in compliance with 37 CFR 1.48(b). The inventorship of this application has been changed by adding 14 named inventors as specified in petition.

The application will be forwarded to the Office of Initial Patent Examination (OIPE) for issuance of a corrected filing receipt, and correction of the file jacket and PTO PALM data to reflect the inventorship as corrected.

1. This application is in condition for allowance except for the presence of claims 2-5 and 10-16, non-elected without traverse. Accordingly, claims 2-5 and 10-16 been cancelled.
2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Cancel claims 2-5 and 10-16.

3. The following is an examiner's statement of reasons for allowance:

Claim 6 recites, inter alia, *a ratio of thickness $[t/t_a]$ of a thickness $[t]$ of said collar portion and/or the reinforcing portion with respect to a thickness $[t_a]$ of said cylinder portion is equal to or less than 1.5.*

The references of record do not teach or suggest the aforementioned limitation, nor would it be obvious to modify those references to include such limitation.

Art Unit: 2832

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
